1:20–1:35

Best practices at common mistakes

1:35–1:50

Hands-on activity (optional)

1:50–2:00

Q&A, comments, suggestions, closing

Learning Objectives

Sa pagtatapos ng seminar, dapat kayong makakapag:

- ✓ Mag-login at ma-access ang inyong dashboard
- ✓ Mag-submit ng IT support ticket nang tama at kumpleto
- ✓ Pumili ng tamang category at priority
- ✓ I-track ang status ng ticket (Open → In Progress → Resolved)
- ✓ Makipag-usap sa IT team gamit ang ticket conversation
- ✓ Magbigay ng feedback pagkatapos ma-resolve ang issue

Bakit Kailangan Natin Ito?

✗ Old Way

Text/Viber/Messenger sa IT personally

Walang record kung sino ang nag-request

Nawawala ang request sa chat

Hindi alam kung sino ang nag-aasikaso

Walang priority — lahat "urgent"

✓ Helpdesk System

Formal ticket na may ticket number

May audit trail at history

Naka-save at ma-track ang status

May assigned IT staff

May tamang priority level at feedback

Ano ang Helpdesk System?

Report IT Issues

Hardware, software, network, email, security — lahat sa isang platform.

Unique Ticket Number

Hal. Ticket #42 — may official record ang bawat request.

Real-time Status

Alamin kung Open, In Progress, o Resolved na ang ticket.

Ticket Conversation

Mag-message sa IT team sa loob ng ticket — hindi sa personal chat.

Notifications

Automatic updates kapag may bagong message o status change.

Feedback System

Mag-rate at mag-suggest pagkatapos ma-resolve ang issue.

Benefits Para sa Inyo

Mas Mabilis na Support

Automatic routing sa tamang IT staff. Hindi na kayo maghahanap kung sino ang available.

May Record

Hindi na "nawawala" ang request. Pwede ninyong i-check ang history anytime.

Voice Ninyo ang Mahalaga

Feedback form pagkatapos ma-resolve — makakatulong sa IT na mag-improve.

Transparency

Alam ninyo ang status: Open → In Progress → Resolved → Closed.

Real-time Updates

Notification bell kapag may progress sa ticket ninyo.

Secure & Professional

Company account, encrypted login, role-based access.

User Roles

Role	Sino	Capabilities
User	Ordinaryong employee (KAYO)	Create ticket, track tickets, message IT, submit feedback
Admin	IT Staff	Assign tickets, update status, manage users
Manager	Management	View analytics, reports, feedback trends

Focus ng seminar: **User role** — paano mag-report at mag-track ng IT issues

Step 1: Access the System

Paano Pumasok

- ✓ Buksan ang browser (Chrome, Edge, Firefox)
- ✓ Pumunta sa helpdeskticketingsystem.vercel.app
- ✓ Click "Get Started" o "Sign In"
- ✓ Ilagay ang company email at password

First Time Users

Click **Register** → Fill up Name, Email, Department, Password

Forgot Password?

Click "**Forgot Password**" sa login page → sundin ang email reset instructions

Step 2: Your Dashboard

Overview

Summary ng tickets — total, open, in progress, resolved

Create Ticket

Form para mag-submit ng bagong IT request

My Tickets

Listahan ng lahat ng tickets ninyo

Sidebar: Dashboard · Profile Settings · Notifications 🔔

Step 3: Create a Ticket

- ✓ **Title** — Maikli pero malinaw (e.g. "Printer sa CRG hindi nagpi-print")
- ✓ **Description** — Ano nangyari, kailan, error message, sinubukan na
- ✓ **Category** — Hardware / Software / Network / Email / Security / Other
- ✓ **Priority** — Low / Medium / High / Critical
- ✓ **Attachments** — Max 3 files, 5MB each (screenshot)
- ✓ **Submit** — Makakakuha ng Ticket Number!

Priority Guide

Low

Minor, pwede hintayin

Medium

Standard, business hours

High

Malaking epekto sa trabaho

Critical

System/department down, urgent

Good vs Bad Ticket Example

✗ Bad Example

Title: Problem

Description: Ayaw gumana

Category: Other

Priority: Critical

✓ Good Example

Title: Outlook hindi makapag-send – Billing

Description:

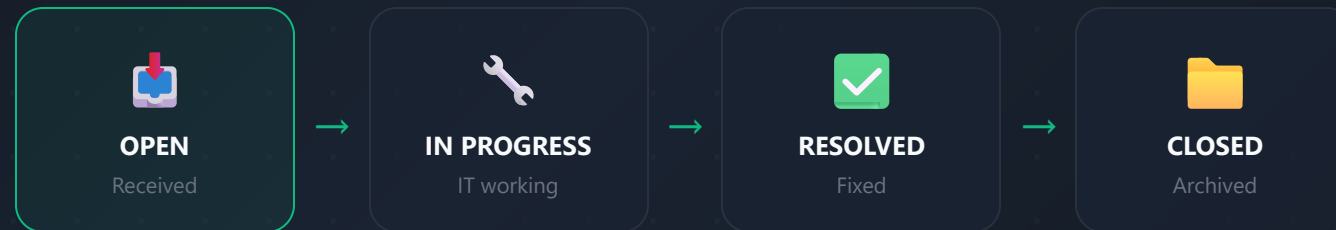

- Simula 9 AM hindi makapag-send
- Error: "Cannot connect to server"
- Restart ko na ang Outlook
- PC-12, Maria Santos

Category: Email | Priority: High

Attachment: screenshot ng error

Step 4: Track Your Tickets

Sa "My Tickets" tab — makikita ang ticket number, title, category, status, priority, date, at assigned IT staff.

Step 5: Ticket Conversation

- ✓ Click ang ticket sa list
- ✓ Buksan ang Conversation panel
- ✓ Type reply at i-send
- ✓ Mag-attach ng screenshot (max 3, 5MB)
- ✓ Makikita kung "Seen" na ng IT

💡 Tips

- ✓ Sumagot sa loob ng ticket — hindi sa Viber
- ✓ Be specific sa follow-up replies
- ✓ Mag-attach ng screenshot kung visual ang issue

Notifications & Feedback

Notifications

- Bagong message sa ticket
- Status change (Open → In Progress)
- Ticket assigned to IT staff
- Ticket resolved — time for feedback!

Submit Feedback

1. Rate ang service: 1–5 stars
2. Optional suggestions para sa IT
3. Submit — one feedback per ticket

Nakakatulong sa IT na mag-improve!

Best Practices — DO's

- ✓ Laging mag-ticket para sa lahat ng IT concerns
- ✓ Magbigay ng complete details sa description
- ✓ Mag-attach ng screenshot kung may error
- ✓ Piliin ang tamang category
- ✓ Gumamit ng tamang priority
- ✓ Sumagot sa ticket conversation — hindi sa Viber
- ✓ Mag-feedback pag na-resolve na
- ✓ I-check ang notifications regularly
- ✓ I-protect ang password — huwag i-share
- ✓ Isang ticket per issue

Common Mistakes — DON'Ts ❌

- ❌ Mag-message sa IT personally sa halip na mag-ticket
- ❌ Mag-submit ng ticket na walang description
- ❌ Gamitin ang Critical para sa minor issues
- ❌ Mag-create ng duplicate tickets
- ❌ I-ignore ang follow-up messages ng IT
- ❌ Mag-share ng login credentials
- ❌ Mag-ticket para sa colleague (turuan sila)
- ❌ Umasa lang sa verbal request

Category Quick Reference

May problema sa...	Category	Example
Computer, printer, monitor	Hardware	"Monitor flickering"
Application, program crash	Software	"Excel keeps crashing"
WiFi, internet down	Network	"No internet on 3rd floor"
Outlook, email	Email	"Cannot receive emails"
Password, suspicious email	Security	"Received phishing email"
Hindi sure	Other	"Need help with new system"

Hands-On Activity

Scenario

Ang printer sa department ay hindi nagpi-print since this morning. May error na "Paper Jam" pero walang stuck paper.

- ✓ Login sa system
- ✓ Create ticket: clear title, detailed description, correct category, appropriate priority
- ✓ Submit at i-note ang ticket number
- ✓ Raise hand kapag tapos na — IT will verify

Q&A · Comments · Suggestions

Tanungin natin sila!

- ✓ Open Q&A — ano ang hindi clear?
- ✓ Comments — ano ang maganda o confusing?
- ✓ Suggestions — anong features pa?
- ✓ Post-seminar survey (Google Form)

Common Questions

Pwede ba mag-ticket para sa colleague?

Better na sila mismo ang mag-ticket.

Gaano katagal bago ma-resolve?

Depende sa priority — Critical = ASAP.

Nakalimutan ang password?

Use Forgot Password sa login page.

Salamat po!

FCDC Helpdesk Ticketing System

helpdeskticketingsystem.vercel.app

- Lahat ng employees — mag-register/login ngayong araw
- Simulan nang gamitin ang system para sa lahat ng IT requests
- Old informal requests — i-convert na sa tickets
- Feedback sa IT kung may challenges sa unang linggo
